

Figure 1 Overview

### Step 1: No Tools, One-Time Assembly

The only assembly is to insert the pivot frame between the parallel ends of the base frame as shown in Figure 2. Insert the 3/4" pivot pin through the parts and secure with the removable lynch pin.

### Step 2: Cable Routing

Next, route the cable under this pivot pin, then upward and over the fixed pin near the top of the pivot frame. Install the second 3/4" pin and lynch pin to capture the loop end of the extraction cable between the fixed pin and 3/4" pin as shown in Figures 3 and 4.

**Note:** Moist soil is desirable when extracting shrubs to minimize the effort required. If necessary, thoroughly soak the root system before removal.

## ⚠️ WARNING

- Always use another cable or log chain to pull the extraction cable loop.
- Never use a rope or sling because these will stretch and cause damage if the load limit is exceeded causing it to break.
- Never extract any shrub larger than 6" in diameter or tall enough to fall on you or any bystanders during extraction.
- Never stand in the vicinity of the shrub as it's being pulled
- Never exceed the cable load limit of 2000 lbs. pulling force.
- Never pull straight away from the plant being extracted. Pull at a sideways angle as shown

### LIMITED WARRANTY

#### (A) Warranty

MAXXTUFF warrants to the original retail purchaser that all products manufactured by it are free from defects in material & manufacturing at the time of shipment for twelve (12) months from the date of purchase. MAXXTUFF will repair or replace any part found defective if the unit claimed to be defective is returned to MAXXTUFF, postage prepaid, within the warranty period. This warranty shall not apply to any product which has been subjected to misuse, misapplication, neglect (including but not limited to improper maintenance), accident, improper installation or assembly, modification (including but not limited to use of unauthorized parts or attachments), adjustment, or repair. THE FOREGOING IS IN LIEU OF ALL OTHER WARRANTIES, WHETHER EXPRESS OR IMPLIED (INCLUDING THOSE OF MERCHANTABILITY & FITNESS OF ANY PRODUCT FOR A PARTICULAR PURPOSE), & OF ANY OTHER OBLIGATION OR LIABILITY ON THE PART OF THE COMPANY.

#### (B) LIMITATION OF LIABILITY

It is expressly understood that MAXXTUFF's liability for its products, whether due to breach of warranty, negligence, strict liability, or otherwise, is limited to the repair of the product, as stated above, & MAXXTUFF will not be liable for any other injury, loss, damage or expense, whether direct or consequential, including but not limited to loss of use, income, profit, or damage to material, arising in connection with the sale, installation & efficiency of the product. It shall not be obligated to make such alterations or modifications to products already in service.

Loop the cable around the base of the tree and secure in the cable anchor on either side.

For maximum grip on the shrub, remove as much cable slack as possible and rotate the pivot frame against the tree before pulling the cable.
